MOU signed with LHTEC Board Member Mr. Scott Cunningham and ETI President Michael Guntnr JR. For the purpose to conclude an exclusive agreement on the MRO and Distribution of the CTS800 engine series.

DETAILS ON THE CTS800

Currently, there are approximately 700 engines in service in various helicopter airframes with a tremendous amount of other future potential. This 375lb 1400SHP FADEC LHTEC Gas Turbine Engine is the result of a joint venture between Rolls-Royce and Honeywell whom originally designed and developed it to power the U.S. Army's Boeing Sikorsky RAH-66 Comanche helicopter.
